

Industrial strategy progress report: One Year On

#IndustrialStrategy

Today sees the launch of the Industrial Strategy progress report which is about the whole of Government working in partnership with industry to set out and deliver long-term plans to secure jobs and growth.

The progress report provides a timely update on the eleven sectors:

- Aerospace
- Agricultural Technologies
- Automotive
- Construction
- Information Economy
- International Education
- Life Sciences
- Nuclear
- Offshore Wind
- Oil and Gas
- Professional and Business Services

As well as an update on the five cross cutting themes:

- Sector Partnerships: Providing support for all sectors to help increase global competitiveness, support innovation and maximise export potential.
- Technologies: Supporting the development and commercialisation of technologies where the UK has the research expertise and business capability to become a world leader.
- Skills: Working to deliver the skills that employers need, giving businesses more say over how government funding for skills is spent.
- Access to finance: Helping businesses get the finance they need to invest in people and equipment and to grow.
- Procurement: Developing UK supply chains and creating a simpler and more transparent public sector procurement system
